

Stanislav Kozak

Full-stack Developer

Bratislava, Slovakia

kozak.stasan@gmail.com

🇬🇧 English — Full Professional

🇺🇦 Ukrainian — Native

🇷🇺 Russian — Full Professional

SUMMARY

Full-stack Developer with a strong focus on Frontend and 4+ years of commercial experience. Specialized in Vue.js (Vue 2 & Vue 3), Nuxt, and TypeScript — including Vue 2→3 migrations and internal UI library development. On the backend, worked with NestJS and Express, applying SOLID principles and design patterns to build scalable and maintainable solutions.

EXPERIENCE

Middle Front-end Developer Webitel

Jul 2024 — May 2026

Building scalable front-end solutions in a product company. Participated in architectural decisions, contributed to an internal UI library ensuring consistency across products, and took part in developing a visual flow editor for building call and message handling pipelines. Handled Rete.js v1→v2 migration and conducted code reviews.

Full-stack Developer Right.Link

Apr 2022 — Jul 2024

Developed and optimized modern web applications across multiple client projects using Vue.js (Vue 2 & 3) with Composition API, Vuex, and UI libraries including Vuetify, PrimeVue, and Tailwind CSS. Worked on SSR/SEO optimization, custom components, and API integrations in an agile environment.

Participated in backend development and database design, building and structuring schemas from scratch. Implemented integrations with third-party services including Telegram bots, AWS, Microsoft APIs, Firebase, and social OAuth logins — delivering end-to-end solutions across diverse projects.

Frontend Web Developer Alpha Solutions

Jan 2022 — Apr 2022

First commercial role focused on supporting and extending an existing Vue 2 / Nuxt 2 / Vuetify project. Started with bug fixes and maintenance, progressing to building new UI components and features. Also gained hands-on experience on the backend — implemented CRUD APIs using Express.

Self-education Independent

Jan 2021 — Jan 2022

Dedicated a year to self-study and building pet projects using Vue, Nuxt, and Express. Followed online tutorials and documentation to create small applications, gaining practical hands-on experience before entering commercial development.

EDUCATION

Zaporozhye Electrotechnical College Computer Science

Aug 2014 — Jun 2018

Studied programming fundamentals including HTML, CSS, JavaScript, Java, and Assembler, along with databases and OOP principles. Diploma project: a file archiver built from scratch with support for compression and decompression.

SKILLS

FRONTEND

- Vue 2
- Vue 3
- Nuxt 2
- Nuxt 3
- TypeScript
- Composition API
- Vuex
- Pinia
- HTML5
- CSS3

UI LIBRARIES

- PrimeVue
- Vuetify
- Tailwind CSS

BACKEND

- NestJS
- Express
- REST API

DATABASES

- PostgreSQL
- TypeORM
- MongoDB
- Contentful

TESTING & TOOLS

- Cypress
- Unit Testing
- Git
- GitHub
- Vite
- Webpack
- npm

DEVOPS

- Docker
- CI/CD
- GitHub Actions
